PROFESSIONAL SUMMARY

Full Stack Developer specializing in MERN and Spring Boot ecosystems with hands-on experience building scalable REST APIs, AI-integrated platforms, and performance-optimized applications. Skilled in React.js, Node.js, Java, PostgreSQL, Docker and CI/CD workflows.

WORK EXPERIENCE

Software Developer Intern

Nov 2025 – Feb 2026

TATA — Forage

- Engineered production-grade full-stack features using React.js, Next.js and Spring Boot, reducing average page load time by 40% through lazy loading and code splitting.
- Designed RESTful microservices using Node.js and Spring Boot for authentication, analytics and data processing workloads.
- Implemented JWT/OAuth2 authentication and role-based access control systems ensuring secure application access.
- Collaborated in Agile sprint cycles delivering production features through code reviews and iterative development.

Full Stack Developer (Technical Lead)

Oct 2024 – Present

Google Developer Group, AKGEC

- Led a 15-member engineering team building student-focused platforms used by 1000+ university students.
- Built scalable full-stack applications using React.js, Express.js and MongoDB with CI/CD deployment workflows.

PROJECTS

BrainHire – AI Interview Prep Platform | React.js, Node.js, Express.js, MongoDB, Gemini API, Puppeteer | GitHub | Live Demo

- Built an AI interview engine using Gemini API to generate role-specific questions and personalized study recommendations.
- Developed ATS-friendly PDF generation using Puppeteer for rendering A4 resumes from dynamic templates.
- Architected JWT-secured dashboards with persistent interview history and progress tracking using MongoDB.

Linklytics – URL Shortener Engine | React.js, Spring Boot, Redis, PostgreSQL | GitHub | Live Demo

- Developed URL shortening services handling 1000+ redirects with low-latency responses using Redis caching.
- Built click analytics services using Spring Data JPA and PostgreSQL capturing device and location metadata.
- Implemented Spring Security authentication and containerized deployment using Docker.

EDUCATION

Ajay Kumar Garg Engineering College

2023 – 2027

Bachelor of Technology in Information Technology

CGPA: 8.1/10

SKILLS

Frontend: React.js, Next.js, Tailwind CSS, JavaScript, HTML5, CSS3

Backend: Node.js, Express.js, Spring Boot, Spring Security, REST APIs, Microservices, JWT/OAuth2

Databases: MongoDB, PostgreSQL, SQL

Languages: Java, JavaScript, C++, Python

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming

Tools & DevOps: Linux, Git, GitHub, Docker, Postman, Vercel, Render

ACHIEVEMENTS

Secured **3rd Rank** at Epoch of Cognition Hackathon among 50+ competing teams.

Recognized as a national-level **Finalist** at Prometeo Dev Quest, IIT Jodhpur.
